force but a few months. And, in addition to the issue of fresh Licenses, persons who had Licenses under the old Act for a certain term of years, were obliged to take out Licenses under the new Act. I believe, however, that notwithstanding the issue of a Notification calling on all persons holding Licenses under the old Act to renew them under the new one, large numbers of arms are still held under the old Licenses. Reports have been called for on this subject.

The Bidi Taluka is full of natural jungle in the western parts, and no road side trees have yet been planted on any of the roads in this Taluka. But it was found that the eastern parts of this Taluka are almost entirely - destitute of road side shade. From,

G. Waddington, Esquire,
Acting Collector of
Belgaum.

To,

Arthur Crawford, Esquire,
Commissioner S.D.

Belgaum 24th July 1880.

Sir,

I have the honor to submit the Administration Report of this District for the year 1879. I regret the delay that has occurred in submitting it. The reasons given by the Assistants and the Deputy Collector for delay in submitting their Reports are satisfactory. The bulk of the material for my own Report was compiled by Mr. Fleet, 1st Assistant Collector,

margin. The Bidi Taluka has been under my charge from the 20th June 1879, and the Sampgaum and Parasgad Talukas from the 23rd August 1879; the latter two Talukas constituted the Charge of the Supernumerary Assistant Collector, Mr. McCorkall, from the 1st July to the 22nd August 1879, the rest of my own Charge, during that time, being made up of the Belgaum and Chikodi Talukas. From the 9th November to the 8th December 1879, I acted as Collector and District Magistrate; during that period, I retained the Revenue Charge of all three Talukas, and Mr. McCorkall had the Magisterial Charge of the

Sampgaum and Parasgad Talukas, and the Huzur Deputy Collector and Magistrate, Mr Richardson, had the Magisterial Charge of the Bidi Taluka. On the departure on furlough of the District Deputy Collector, Mr Guerin, I assumed charge, in addition to my own duties, of his Office, comprising the Chikodi and Athni Talukas on the 14th April 1880, and retained them up to the 27th April on that date, the Revenue and Magisterial Charge of the Athni Taluka was transferred to Mr McCorkell, while the Charge of the Office and of the Chikodi Taluka remained with me up to the end of the year now ending, margin. The causes of this are given in detail in Appendix II. Most of the items are small, and of the usual annually recurring nature. But in the Parasgad Taluka, under the head of increase, there is an item of Rs. 2654-6-" on account of

the introduction of the Revised Survey Rates in two villages, and an item of Rs. 1787-9-6 on account of the Assessment levied on Shetsandi lands in consequen of the Shetsandis having left their villages during the famine and having not yet returned to perform the services for which their lands were held; and, under the head of decrease, there is an item of Rs. 1155-"-" on account of the resignation of lands under cultivation, and an item of Rs 1793-2-" on accoun of lands which were held by occupants who left their villages during the famine and have not yet returned, and which were entered as "Government Waste" because, when the right of occupancy was put up to auction, there were no purchasers.

But, in the Sampgaum Taluka, the sanction of Government has been given in para. 18 of their Resolution, Financial Department, No 2002 ~~Copy for~~ of the 9th Ultimo, to the writing off of Rs 270-"-" as irrecoverable on account of the years 1877-78 and 1878-79. And, in the

Parasgad Taluka, sanction has been given in the same order to the writing off of Rs. 6,687-5-9 as irrecoverable on account of the years 1876-77, 1877-78, and 1878-79, minus any amount which may be found to be capable of collection; inquiries on this point are still in progress, but it is not expected that any large amount out of this balance will prove to be recoverable. These figures are the result of the personal inquiries made by the Collector and by myself when doing the Jamabandi settlement of respectively the Sampgaum and the Parasgad

The outturn of the early Jowari and other Khariff crops averaged only six annas in the Bidi Taluka, and of Cotton only four annas; but the Rabi crops of Battapadars and Gram gave a yield of twelve annas. In the Sangamn Taluka the outturn of the Kharif Jowari and Navani was nearly a bumper yield, and the outtur of the Rabi Jowari, Wheat, and Gram, averaged about eleven annas; the yield of the Cotton crop was only about nine annas. In the Parasgad Taluka some damage was done, and more was threatened, by rats in the months of July, August, and September; but prompt and successful measures were taken to destroy them, and the result was that the Kharif and Rabi grain crops, and also Cotton,

all gave an average yield of from twelve to fourteen annas.

11.— Making allowance for such effects of the famine years as have not yet quite ceased, the general condition and prospects of my Charge are good. The following table contrasts the amount of land now under cultivation with the amount for the preceding year:–

The majority of the decrease in the Parasgad Taluka is due to the

causes indicated in paras. 5 and 6; it includes also other lands of an inferior description which repay cultivation only where prices are low and labour cheap, and which have been thrown up for the present in favour of more careful cultivation of land of better quality. This latter remark applies also to the decrease in the Bidi and Sampgaum Talukas.

The miscellaneous accounts and other records of the Mahalkari's Kacheri at Murgod in the Parasgad Taluka, where there is no Treasury, were thoroughly examined on the 5th to the 7th May, and were found to be fairly well kept. At my second visit to the Paragad Taluka, my movements were very much restricted by the necessity of my being at and near the Taluka Station in order to superintend the preparation of the papers for the introduction of the Revised Survey Rates; and in consequence of this, and of the Village Accountants being mostly absent from their villages at the Taluka Station with their Accounts, Records, and Maps, on the same business, the amount of personal inspection performed in this Taluka is less than would have been the case under ordinary circumstances. The performance of their duties by the Village Account

After the receipt of Government Resolution, Judicial Department, No. 1521 of the 2nd March 1880, the opportunity was invariably taken, whenever the Ryots were present at my camp for the examination of their Receiptbooks, to explain to them the advantages and emoluments of Military Service, with the object of procuring recruits.
